Uber is the best taxi service. I find it unfortunate that it has been taken away. They set their standards high and offer great service. I would concentrate on the cab services we currently have. Their sketchy, dirty, and sometimes they don't even turn their meters on. Green taxi charges \$15 to cross a bridge, even though I go from downtown to Avondale, less than 2 miles. Taking away this option will only add more accidents caused by drunk drivers. Regular cab services aren't guaranteed. Drunk people will get impatient, and choose to drive themselves. Quit trying to govern everything that happens here! Charleston, you created this, you wanted more attraction, you achieved your goal. You wanted to be a reputable city, it's time to act like one.
Follow through!

All my Best,
Tina

I am writing to express my opposition to the PSC's order directing Uber to cease and desist operations. This is a country built on capitalist ideals and asking a company to stop doing business is contrary to the way Americans do business. I support Uber and the right to make a choice!

Dear government person reading this,

Seriously? C'mon, get the lobbyist out of your pocket and allow this great service to continue.
